

KAMWA EMMANUELLE ALIX - Frontend Developer | JavaScript | React | CSS | HTML

Douala, CM • emmanuellekamwa@gmail.com • +237679874358 • [LinkedIn](#)

SUMMARY

Self-motivated frontend developer with strong expertise in HTML, CSS, JavaScript, and React through hands-on project work and remote collaboration. Passionate about creating clean, user-friendly web experiences. Open to remote junior developers or internship opportunities.

PROFESSIONAL EXPERIENCE

MICROVERSE

TECHNICAL SUPPORT ENGINEER

Remote

2021-2023

- Reviewed over 300 code submissions, resulting in a 40% improvement in students' coding proficiency.
- Guided 5+ students, leading to an 80% increase in adherence to coding standards in subsequent projects.
- Enhanced collaborative learning, as evidenced by a 60% increase in student participation in group projects and peer reviews.
- Automated the generation of weekly reports on code submission trends, freeing up 5 hours per week for senior engineers to focus on more complex tasks like code quality and debugging.

EDUCATION

LAUREATS MODERN BILINGUAL COLLEGE

General Certificate of Education Ordinary Level in Science

Douala, CM

2012-2017

- Passed in 10 subjects

ETOILE MODERN BILINGUAL COLLEGE

General Certificate of Education Advanced Level in Science

Douala, CM

2017-2019

- Passed in 5 subjects

MICROVERSE BOOTCAMP

Remote Full Stack Web Development Program, Full-Time

Remote

2020-2022

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby on Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

PROJECTS

[Home Decor Webpage](#)

- A website that displays good-quality home furniture, different prices, good deals, and testimonials from our faithful clients. Built with: HTML5, CSS3, JavaScript | [Github Repo](#)

[Conference App](#)

- Built a responsive multi-page web app using semantic HTML and CSS to display event info. Improved accessibility by using ARIA roles and mobile-first design. Integrated GitHub Pages for deployment. | [Github Repo](#)
